

The Mudoc Corporation's Goals

The company's **primary goal** is to help every nation achieve full literacy and high levels of knowledgeability through the use of our software invention, *interactive movable type*, and the other tools of our new digital technology, *the mudoc technology*, which is described and demonstrated at our website, mudoc.com

The company's **second major goal** is to help the human community reverse global warming and bring Mother Earth back to good health in the way we have depicted it in our Web page, [Reversing Global Warming](#)
